

## BI-LEVEL TRAINING DESK

Low monitor height provides uninterrupted line of sight between instructor and student. The height adjustable monitor platform is available in three styles. The arm attaches and adjusts vertically without hardware and can be positioned horizontally anywhere along the worksurface. Longer worksurfaces can accommodate two monitor arms. The desk is contoured to bring the monitor closer to the user. One monitor arm is included with each desk.

Choose Monitor Arm (Included in price)

- |         |   |
|---------|---|
| 1212CRT | CRT 12" x 12"   |
