

Our Open Desktop Console Solution Designed for Technology-Intense Environments

Evans' Strategy™ console has been specifically designed for technology-intensive environments such as telecommunication and transportation centers, process control, and financial trading. It provides flexible and comfortable workspaces that allow its users to focus on critical decision-making.

The user-friendly design of the Strategy™ is aimed to help improve workplace effectiveness through a number of innovative options and features combined with a durable structure and aesthetic flexibility. With an efficient and versatile cable-management system that is designed to accommodate technological upgrades, this desktop solution can be easily relocated or reconfigured to suit your changing needs.

By creating such a flexible and functional environment, Evans' Strategy™ is the ideal solution for today's dynamic, technology-driven workplace.

Design Features

Modular Structure

Maximum flexibility is realized as standard modules can easily be added or relocated as required. Supporting a full range of layouts and room configurations, Strategy™ can be transformed from a single to back-to-back option as well as mixing various module lengths to utilize space more effectively.

Equipment Mounting and Access

Strategy™ easily accommodates computer equipment with a variety of processor shelves, including standard fixed or slide out shelves or optional roll out shelves. Standard front and rear hinged, and optional sliding access doors ensure easy access, while convenient open cable trays allow uninterrupted runs between desks.

Functional Work Environment

Designed for fast-paced, technologically intense environments, Strategy™ has been ergonomically designed for maximum operator comfort. With options such as adjustable work surfaces and rounded polyurethane nosing, its durable design provides ample workspace with a minimum desk footprint.

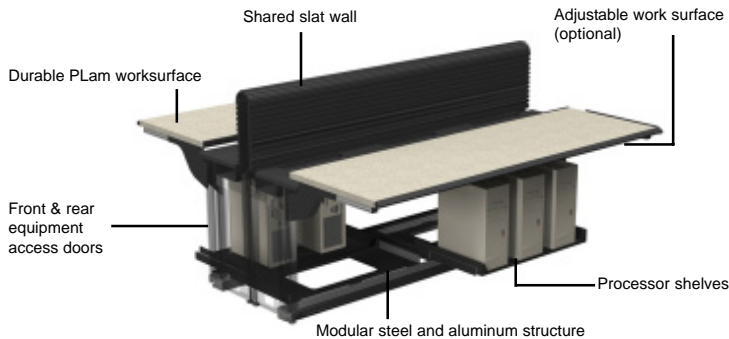

Versatile Slat Wall

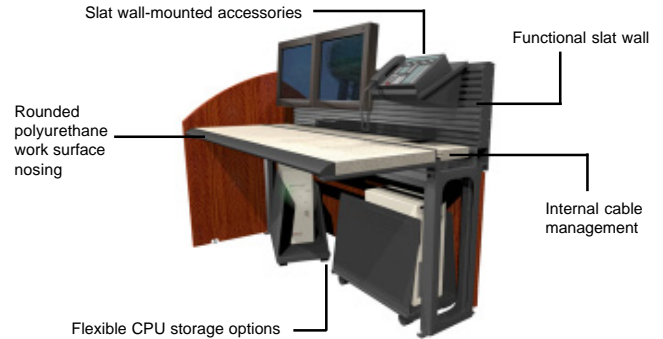

Fully functional slat wall, in 6" (153mm), 12" (305mm) and 18" (458mm) standard heights, allows for mounting of flat screen monitors and various accessories while effectively hiding monitor cables. Walls can be shared for back-to-back configurations and if required, can also be removed to achieve a fully open-desk concept.

Contemporary Styling

The open work surface structure provides a clean aesthetic look and the Strategy™ is offered in a wide range of durable exterior laminate finishes (with HPL and wood veneer options) to harmonize with any environment.
